Sustainable Development

Hotel du Cap-Eden-Roc, strongly committed to sustainable development, has implemented different actions in order ensure the respect and protection of the environment.

The hotel has a rich natural heritage that must be protected. With the League for the Protection of Birds, the hotel has installed on property nesting boxes, an insect hotel and most recently four beehives that will contribute to biodiversity and produce delicious honey.

Global warming is a major issue for Hotel du Cap-Eden-Roc, having taken actions to limit its greenhouse gas emissions. The hotel is partner of the National Forestry Office and the Provence-Alpes-Côte d'Azur Region, for a reforestation project of the Domaniale des Maures forest. Indeed, this forest is degrading rapidly due to prolonged summer droughts and increasing number of tourists that destroy plants and disturb wildlife.

Every day our Chefs prepare all dishes with seasonal products delivered by local farmers and suppliers and refine them with vegetables and herbs from our own garden.
