COMMITMENT

Sustainable development at the Château Saint-Martin & Spa

The hoteliers of the Château Saint-Martin & Spa are guided by common values and objectives, especially in terms of social and environmental development. Discover our commitments and our actions for the benefit of generations to come.

SOCIAL

Respect for human rights

The soul of the Château Saint-Martin & Spa lies in the welcome and friendliness of our employees. These artisans of paradise work on creating paradise every day to ensure a magical emotional experience for you.

This is how we can guarantee a level of service which always goes above and beyond.

ENVIRONMENTAL

Responsible consumption

Our estate is home to a huge variety of Mediterranean plants that are native to the local area. Guests interested in finding out more are invited to take a look at the information boards dotted around our gardens.

The hotel has also installed beehives in its park and an insect hotel.

To contribute to waste reduction, the Château Saint-Martin & Spa is committed to first reducing, then entirely removing plastic.

SOCIETY

Environmental awareness

Our role is to provide you with quality products, which respect both your health and that of the environment. We have chosen Bamford's range of organic products based on our values for your care.

You are politely informed that your linen will be changed every other day, unless you choose otherwise.

The Château Saint-Martin & Spa is a partner with the «Ligue pour la Protection des Oiseaux» for the protection of the local species, the bird «pie grièche».

SOCIETY

Sustainable community engagement

The locally-sourced produce provides unique flavours and contributes to our local product economy.

Indeed, our menus are made with local products and vary with each season.

You can also contribute by donating any clothing articles you do not wish to take home with you. Simply put them in our “Giving Bag” which can be found in your closet. We will donate the items to the local antenna of the French Red Cross.
