SUSTAINABLE DEVELOPMENT

Global Compact

The Hotel du Cap-Eden-Roc is a member of the United Nations Global Compact.

The Global Compact Initiative brings together global companies and organizations that believe in universally recognized principles to build a sustainable society.

COMMITMENT

Sustainable development at the Hotel du Cap-Eden-Roc

The hoteliers of the Hotel du Cap-Eden-Roc are guided by common values and objectives, especially in terms of social and environmental development. Discover our commitments and our actions for the benefit of generations to come.

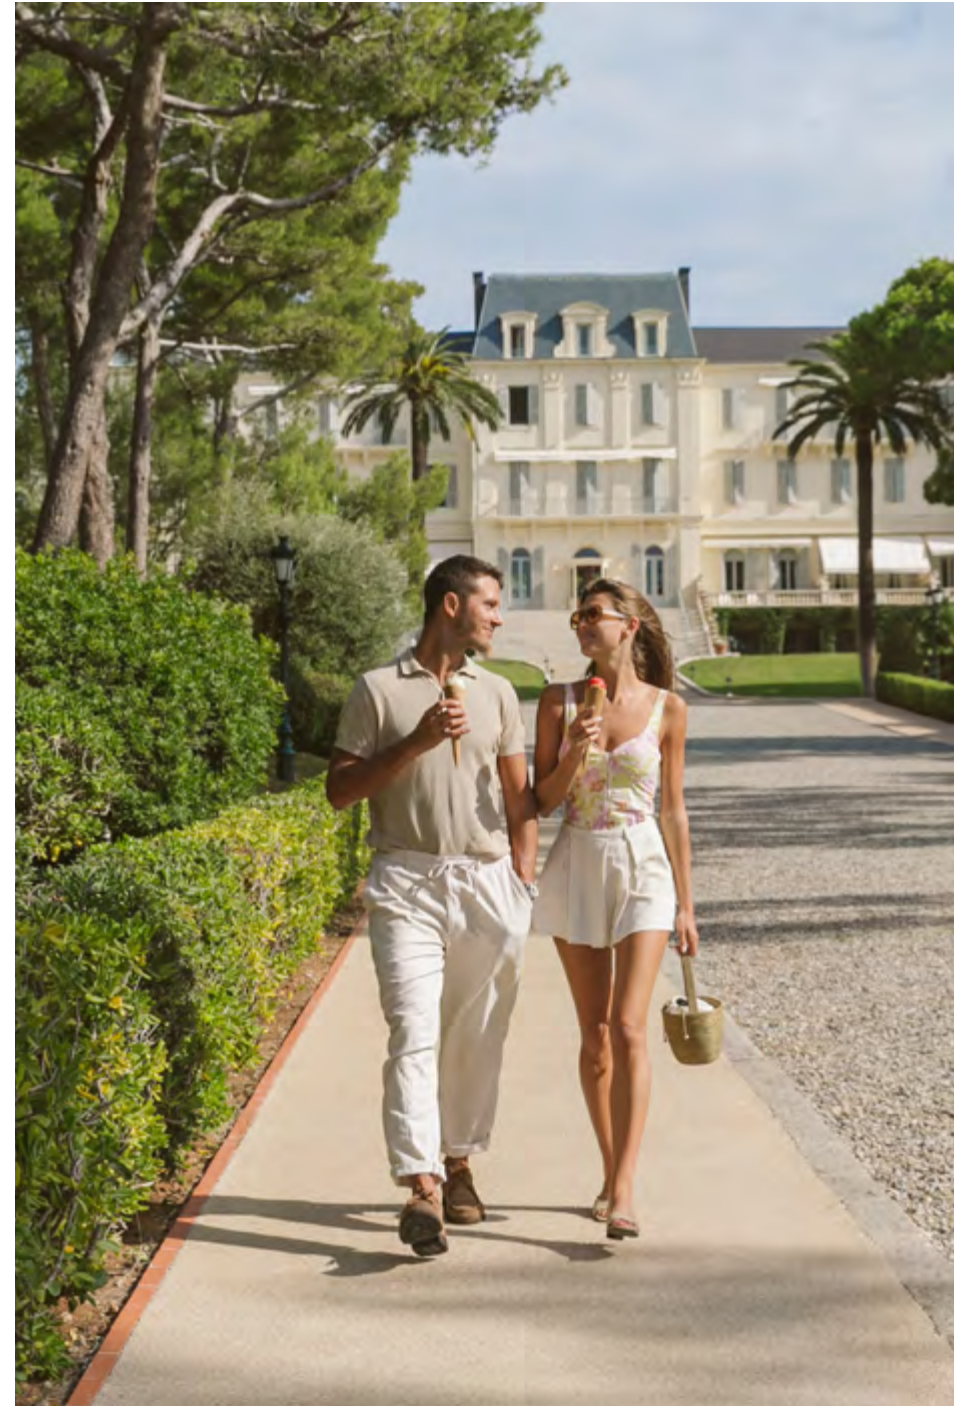

SOCIAL

Respect for human rights

The soul of the Hotel du Cap-Eden-Roc lies in the welcome and friendliness of our employees. These artisans of paradise work on creating paradise every day to ensure a magical emotional experience for you.

This is how we can guarantee a level of service which always goes above and beyond.

ENVIRONMENTAL

Responsible consumption

Our estate is home to a huge variety of Mediterranean plants that are native to the local area. Guests interested in finding out more are invited to take a look at the information boards dotted around our gardens.

The hotel has also installed 4 beehives in its park and an insect hotel.

To contribute to waste reduction, the Hotel du Cap-Eden-Roc is committed to first reducing, then entirely removing plastic. This is why we now use biodegradable straws.

SOCIETY

Environmental awareness

Our role is to provide you with quality products, which respect both your health and that of the environment. We have chosen Bamford's range of organic products based on our values for your care.

You are politely informed that your linen will be changed every other day, unless you choose otherwise.

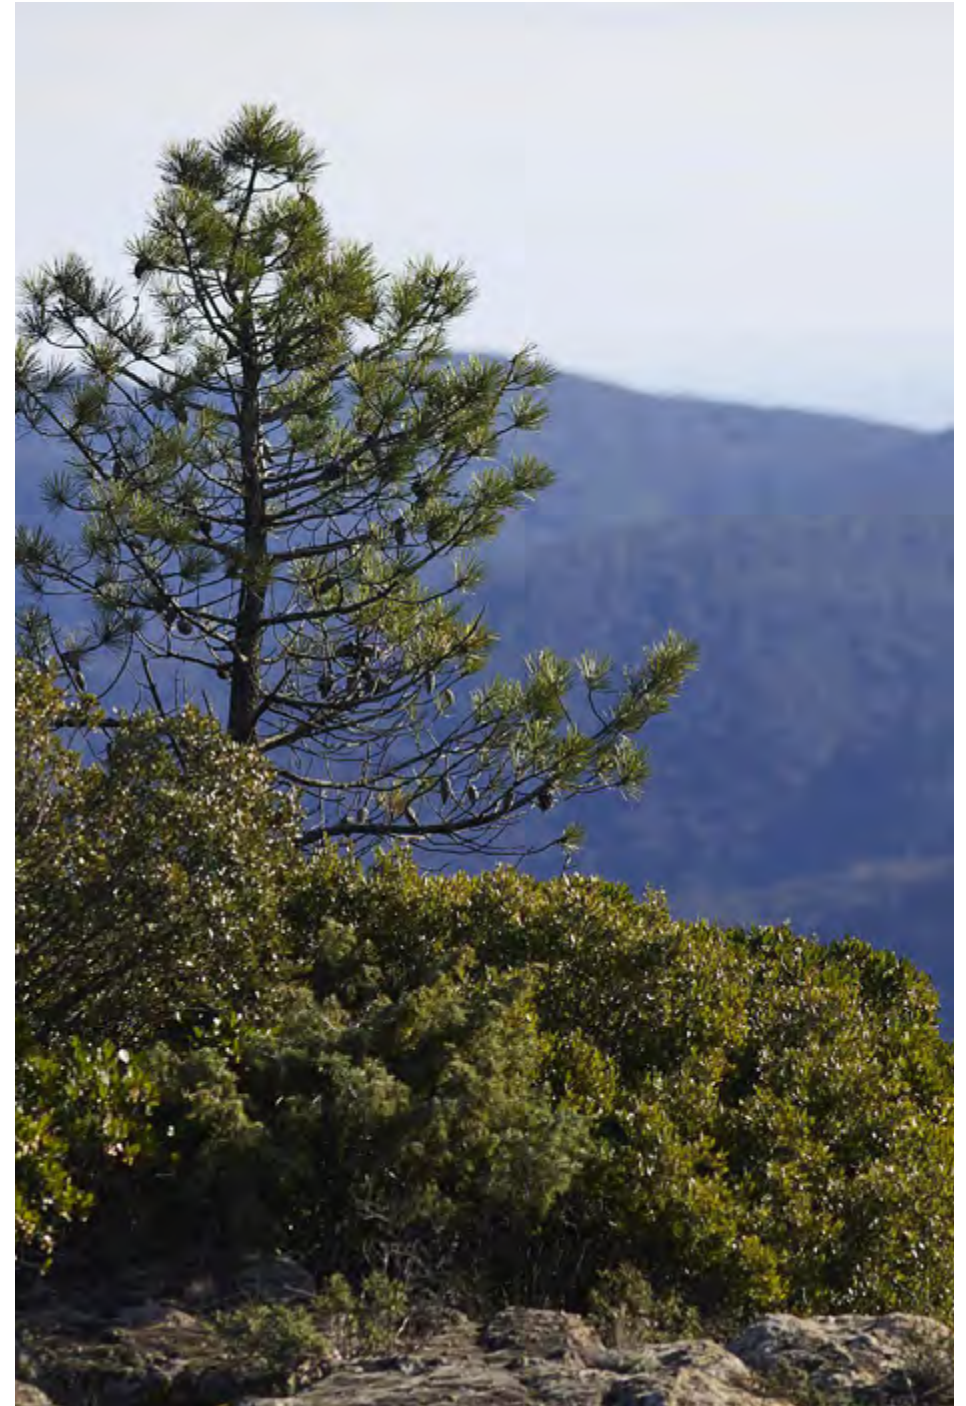

SOCIETY

Environmental awareness

Hotel du Cap-Eden-Roc is making every effort to limit greenhouse gas emissions and help reduce the effects of climate change. One way we're doing so is by partnering with the National Forests Office (ONF) and the Provence-Alpes-Côte d'Azur Region on a local project to plant new trees.

SOCIETY

Sustainable community engagement

The locally-sourced produce provides unique flavours and contributes to our local product economy. So you can taste fruits, vegetables and herbs from our kitchen garden.

You can also contribute by donating any clothing articles you do not wish to take home with you. Simply put them in our “Giving Bag” which can be found in your closet.

We will donate the items to the local antenna of the French Red Cross.
